## ITEMS OF INTEREST TO REA BORROWERS

SPEEDY ACTION ESSENTIAL  
IF YOU DESIRE THESE MATERIALS

March 3, 1945

Location: Little Rock, Arkansas  
Condition: New - excellent  
Price: \$.009 per foot, f.o.b. Carrier, Little Rock, Arkansas  
Time Limit: March 15, 1945  
Order Instructions: Mail orders to us in duplicate with Vendor's name and address blank for us to fill in the appropriate Disposal Agency name, etc. We will retain the duplicate order for our reference.

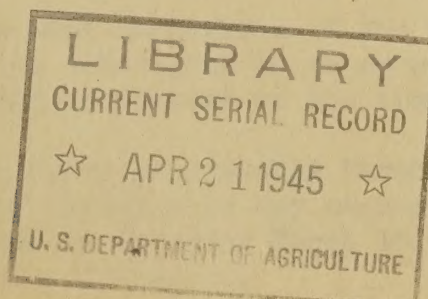

There is available as surplus property 635,992 feet of #12 Single Conductor, 35% rubber insulated wire for immediate sale.

This wire is of a very special grade and has 1/10" 35% rubber insulation. It is very durable and pliable.

REA will approve its use for the same purpose that non-metallic sheathed Cable, or Type R code wire can be used. It is also suitable for installation in damp locations.

Since non-metallic sheathed cable is practically impossible to get, we recommend that each Cooperative interested in making house wiring materials available for their consumers, take advantage of this opportunity.

This wire is available in coils or reels of approximately 6359 feet each. The Disposal Agency will not accept orders for less quantity than one reel or coil, or the multiple of same.

Location: Little Rock, Arkansas  
Condition: New - excellent  
Price: \$1.00 per foot, 100 ft. Little Rock, Arkansas  
Time Limit: March 15, 1945

Order Instructions: This order is to be in duplicate with Vendor's name and address blank for us to fill in the appropriate Division. We will retain the duplicate order for our reference.

There is available an unusual property 635, 636 feet of 1/8" single conductor, 25% rubber insulated wire for immediate sale.

This wire is of a very special type and has 1/10" 25% rubber insulation. It is very durable and reliable.

It will remove the use for the same purpose that non-metallic sheathed cable or Type K cable wire can be used. It is also suitable for installation in damp locations.

Since non-metallic sheathed cable is practically impossible to get, we recommend that each Government interested in using house wiring material available for their convenience, take advantage of this opportunity.

This wire is available in coils or reels of approximately 635 feet each. The Division Agency will not receive orders for less quantity than one reel or coil, or the entire lot.

March 13, 1945

Location: In all REA Regions.

Condition: Mostly new. No used property will be considered unless condition and price warrant consideration.

Price: Between 50% and 70% of your normal purchase price. All prices will be f.o.b. Carrier.

The various Surplus War Property Disposal Agencies are sending us daily lists of the following surplus war property which, in general, is hard for you to obtain from normal sources. You have indicated your desire to obtain these properties through Surplus War Property activities.

If the price indicated above is satisfactory, please send us your order in duplicate with the space for vendor's name left blank, stating quantity, type and size of each item, and your normal cost marked in pencil. If, after sending us your order, the status of your needs for these materials changes for any reason, please notify us immediately.

We will then be in a position to fill your order as the items become available in your region. Such orders will receive priority on properties as they become available. Further Releases will only be sent out on properties for which there are no existing orders from Cooperatives in our files. If we cannot completely fill your order at one time, we will authorize the Disposal Agency to make partial shipments and complete the balance as the property becomes available.

Those who have already sent orders in should not be disturbed if they have not received materials yet, as their particular items may have been withdrawn from the Disposal Agencies temporarily by the Army. In addition, some items have not been available in all areas.

As a reminder, we have reproduced the Acceptable Materials List on the reverse of this sheet. Please don't just check this and send it in, as we need your quantities, sizes, price, etc.

You may also be interested in equipment for the office, as visible and box files, desks, chairs, tables, machines, etc.; or for your stockroom, as work benches, material bins, tools, etc.
